KEY RELATIONSHIP DYNAMICS

K-9 & Big 9 (Brothers)

Core dynamic: Big 9 took triple murder charge to protect K-9 ('I had to rise, and fall to make sure my little brother could see the next bright sunny day'). K-9 raps for Big 9, mentions him in every project. Big 9 used to

be called 'Superman' on the Ends — when he went to Wormwood, K-9 became 'Krypto' (the Superdog). This is THE foundational relationship of SD Media.

****K-9 & Rax (Best Friends, NOT Romantic)****

K-9 explicitly defends this in 'Nest Crease': 'Rax is best string / Give my whole bein / To kept the best thing / In my life from jettin.' Rumors spread by Nala and others that they're dating — FALSE. K-9 is bisexual but Rax is his platonic anchor. K-9 is protective of Rax, not possessive. Rax brings normalcy.

****Zed & Rax (Identical Twin Brothers)****

Officially confirmed as identical twins. Blood connection. Zed is underboss; Rax is protected bridge. Zed: 'R Kidd my blood and kin.' Zed's entire operational concern is protecting Rax while Rax navigates Academy. If Academy discovers Zed is Rax's twin AND gang underboss, catastrophic.

Big 9 & Dame (Engaged)

Dame: '25 to life just made me his wife and I'll wait 3 x that amount to make mine... Forever is my love for Big 9.' Mathematical eternal love (75 years). Dame runs SD Media operations while Big 9 is incarcerated. She's his voice on the outside, his strategic mind, his reason to survive.

Angel & Stray (Cipher Partners)

ProphetFilms Stream 01 — Technical Cipher. Angel and Stray (as The E-Boy) trade bars. CRITICAL: Stray's tinnitus (constant high-pitched whine) QUIETS during cipher with Angel. This has never happened before. Angel is the only person who can do this. This is a profound connection — possibly the most important musical relationship in the universe. If anyone identifies The E-Boy as Stray, it exposes Stray's hidden activity.

Angel & Zed (Volkov Connection)

Both have 'Volkov' in their names. Zed gave Angel the benediction on 'Volkov Legacy' — this doesn't happen lightly. Zed sees himself in Angel (trauma, masks, code-speaking).

BUT: Zed warns Angel the Volkov name is dangerous — if Academy hears both 'Russian student at NEPH' AND 'Volkov on SD Media album,' questions get asked. Zed to Angel: 'The name. Change it or bury it.' Tension unresolved.

****K-9 & Angel (Fierce Co-Conspirators)****

K-9 is NO LONGER THREATENED. K-9 knows Angel's triple identity and is now his fierce co-conspirator. Post-Track 08 (suicide confession), K-9 sits with Angel in silence — protective shift, no longer territorial. K-9's defense of his crown on Track 03 established him as a transatlantic bridge with Angel's Oakland roots.

****Angel & Lux (Mother-Son)****

Complicated. Angel used Lux's phone call on Track 06 without consent ('Mijo...Sin Miedo, papi'). Lux eventually re-recorded the message ('If you're going to use my voice, make sure it's the version of me that fights.'). Two versions exist: vaulted (original fear) vs. potential release (fighter). Only Angel and Lux know. Lux has sent a cartel care package to protect him.

SYMBOLS & RECURRING MOTIFS

| **Symbol** | **Meaning** |

| **Muzzle Up, Teeth Down** | Core Dogs philosophy — control (muzzle up) vs. release (teeth down). Restraint until action is necessary. |

| **At-risk (*)** | Triple meaning: at-risk youth + asterisk notation + trap music. 'Real grime rap trapped straight from the at-risks.' |

| **Sin Miedo** | 'Without fear' — Angel's family creed. Lux teaches this. Connects to Dog-Law commandment 'Fear No Evil.' Reyes family philosophy. |

| **Red Paw** | SD Media logo. Blood, violence, marking territory. 'Red tings' = guns/blood/violence but ALSO red

markings on Dogs.
|

| **The Chain** | Zed's logging chain — weapon used to drag him three blocks. Reclaimed as symbol. 'Off the chain tings' = wild + literal chain. When Zed says keep it, K-9 backs down immediately. |

| **GT (Ghost Town)** | Angel's neck tattoo. Ghost Town Oakland origin marker. Carries the dead with him. 'Straight out of Ghost Town Oakland.'
|

| **Krypto & Superman** | Big 9 was 'Superman' on the Ends. When he went to Wormwood, K-9 became 'Krypto' (the Superdog). Brother connection. 'Thank you. For being Krypto when I couldn't be Superman.' |

| **72 Pills** | Angel's suicide attempt. 72 pills (2 more than the 70 shots that killed his father). Trying to OUT-DIE V.

Track 08 confession. 'So I ate 72 the red green and blues.' |

| **Wormwood Scrubs** | Big 9's prison. 'The woods that worms call good.' Mentioned in every project. Physical location of the founder. Symbol of sacrifice. |

| **NEPH/SEPH** | North Ends Public High vs. South Ends Public High. Unity explicitly stated: 'SD Neph seph.' No North-South beef — connection, not division. |

| **The Kennel** | 47 Marlowe Street Basement, North Ends, London. SD Media studio. Where everything is recorded. Dame's domain. The vault location. |

| **Academy Plaza** | Neutral ground between NEPH and St. Augustine's. Fountain Incident location. Where Rax

brings Angel for normalcy. Contested space.

|

DOG-LAW COMMANDMENTS (CANON)

Established by Dog-Prophet (Angel Reyes) on Track 04: 'Dog-Scripture'. These are now faction doctrine.

1. **THOU SHALT NOT SNITCH**

   Foundational rule. Silence is gold. Never cooperate with police.

2. **HONOR THE DEAD**

Remember those who fell. Dimitri, Trey, Socks, Yay, Eatz, **Dmitri Volkov — always mentioned. Never forgotten.**

3. **FEAR NO EVIL (SIN MIEDO)**

Reyes family creed integrated into Dogs philosophy. Face danger without fear.

4. **PROTECT THE SET**

The pack comes first. Defend your people at all costs.

5. **TRUST NO BITCH**

Informants, betrayers, those who break loyalty — no trust.

6. **KEEP THE STEEL COLD**

Weapons ready. Emotional control. Don't let heat drive decisions.

7. **WATCH THE THRONE**

Protect leadership. Big 9 is founder even from prison. Hierarchy matters.

8. **NEVER FORGET HOME**

Oakland, London, Chicago — your origin is your anchor. Geographic loyalty.

9. **SILENCE IS GOLD**

Snout's protocol codified. What you don't say can't be used against you.

10. **DOG EATS DOG**

Survival of the fittest. The world is brutal. Adapt or die.

****GEOGRAPHIC NETWORK MAP****

****OAKLAND (Ghost Town) → LONDON****

Angel Reyes fled Oakland after father's murder, friends' deaths, RICO proximity. Arrived London with ProphetFilms camera. Connection established through unknown broker (possibly Dame/Katarina Volkov).

****KANSAS CITY (Strange Music) → LONDON****

Big 9 established Strange Music connection (Tech N9ne, Krizz Kaliko, King Iso) before arrest. 'Big ups to Tech, Krizz, and X them.' Midwest + UK unity. K-9 uses chopper flow (Tech N9ne technique) on tracks.

****CHICAGO → LONDON****

'SF SD Chi town from the ends to the states.' Drill influence. 'fo no fo nem' reference. Connection established but details unclear. R-DOGG-IND possibly Chicago connection.

****NORTH LONDON (NEPH) ↔ SOUTH LONDON (Dame/Katarina)****

Big 9 (North Ends) + Dame (South London) established North-South unity through relationship. 'From the pen to the penitentiary.' Dame bridges South London grit with North Ends operations.

****WORMWOOD SCRUBS (The Cage)****

Big 9's prison. Not a geographic origin but a permanent node in the network. 'From the

states to the woods that worms call good.' Phone calls coordinate operations. Big 9 approves/denies members from inside.

****CRITICAL TENSIONS & NARRATIVE BOMBS****

****THE E-BOY IDENTITY****

****DANGER LEVEL: CATASTROPHIC****

If anyone identifies The E-Boy's voice on 'Technical Cipher' as STRAY, it proves Stray is NOT silent — he's active under aliases. This connects Stray to Angel (Oakland/RICO), destroys Stray's anonymity, betrays K-9 (Stray raps with newcomer but won't record with the pack?), and creates crisis for Dame (knew or didn't know?). The

album has dropped, but the full scope of this is still a gun held to Stray's head.

****THE VOLKOV NAME****

****DANGER LEVEL: EXTREME****

Angel Reyes Volkov + Zed's 'Russian student' cover = too close. If Alistair Delarusso meets Angel and hears 'Volkov,' does it validate or expose Zed's fiction? Zed warned Angel: 'The name. Change it or bury it. It can't live on a track and live in a school at the same time.' Tension unresolved.

****THE FORSAKEN SON (MIKHAIL VOLKOV)****

DANGER LEVEL: APOCALYPTIC

The Volkov name triggered a Russian syndicate response, bringing Dame/Katarina's abandoned biological son, Mikhail Volkov, to London. He is highly trained, cold, and currently holding Angel hostage. His arrival exposes Dame's deepest trauma and threatens to destroy the entire sanctuary from within.

PREFECT LEO'S FILE

DANGER LEVEL: HIGH

Leo is building documentation on SD Media content as evidence to expel scholarship kids. He doesn't know he's building a file on Rax's best friend, Zed's brother's circle, and a 64-member gang. Metropolitan Police Gangs Matrix already monitoring. Leo is poking a wolf den with a ruler, but K-9 and Rax publicly humiliated him during the Fountain Incident.

****DOG GONE PROFIT RELEASE****

****DANGER LEVEL: VARIABLE****

****Act I of the album has dropped.** Angel used the "Shield Strategy": he put his real face, cartel tattoos, and dead family members on the cover to draw 100% of the police/global heat, using fake names and**

masked performers for all features and videos. If the police or rivals look deeper than Angel's "Target" persona, the cascading crises will erupt.

****NALA'S GOSSIP****

****DANGER LEVEL: MODERATE****

Nala watches ProphetFilms on repeat. Ships K-9/Rax (wrong but spreads rumors). If she digs too deep into The E-Boy or connects Rax to Zed to Stray Dogs leadership, her gossip could expose the network to Academy elites.

****TIMELINE OF KEY EVENTS****

| **Date/Period** | **Event** |

| :---: | :---: |

| 2020 | Trey (Angel's friend) dies in Oakland. First loss Angel memorializes. |

| Late 2023 | Pre-Dogs era. Stray & Big 9 record 'SD Connections'. Stray & Zed record 'Chalk & Crown'. These are Stray's only confirmed pre-arrest recordings. |

| \~2024 | Big 9 arrested for triple murder. Takes the fall for K-9. Sentenced to 25-to-life x3 (effectively whole life order). Sent to Wormwood Scrubs. K-9 becomes 'Krypto' after Big 9 ('Superman') is caged.
|

| \~Late 2025/Early 2026 | Dmitri Volkov (Angel's father) murdered — 70 shots, execution-style. Angel attempts suicide: 72 pills + vodka from V's garage. Lux finds him seizing, calls ambulance. He survives.
|

| February 10, 2026 | ProphetFilms Stream 01 goes live. Angel + Stray (as The E-Boy) perform Technical Cipher. 38,402 viewers. Angel arrives in London officially.
|

| February 2026 | Dog Gone Profit album recorded. Dame executive produces. Angel completes 7 tracks +

suicide confession (Track 08). Big 9 hears it, orders: 'He's not leaving London. He stays with us.'

|

| **February 14, 2026 (Midnight) | **'DA DOG GONE PROFIT' Act I drops anonymously. The internet catches fire. Met Police focus entirely on Angel's Oakland Cartel ties, entirely missing the NEPH kids.**

|

| **February 14, 2026 (Morning) | **The Fountain Incident. K-9 and Rax publicly humiliate Prefect Leo, diffusing a gang war with a piggyback ride. Dog-Law's deployment is aborted.**

|

| **February 14, 2026 (Mid-Day) | **Angel is marked as the 66th Dog by Auntie Kat. Stray unmasks his hair and speaks his first words to Himedkle. Chew-toy deduces Angel's identity.**

|

| **February 14, 2026 (Afternoon)** | **Mikhail Volkov arrives in London, bypasses Angel's cartel instincts, and ambushes him in Dame's apartment.** |

| February 14, 2026 | CURRENT DATE. Metropolitan Police asking shops to report — silence protocol holds. Prefect Leo building file. Nala gossiping. Angel processing everything. Stray's tinnitus quiet when Angel is near. |

Key Behavior	Watches ProphetFilms Stream 01 on repeat. Pauses on K-9/Rax background frames. Posts 'who is this and why is he fit' about Angel.
Danger	Her gossip could expose connections if she talks too much. Doesn't realize she's discussing gang members.
Current Arc	Developing feelings for Rax while spreading rumors about him. Might expose E-Boy/Stray if she digs too deep.

PREFECT LEO

Age	17-18 (Year 13)
Role	ENFORCER — Anti-NEPH crusader, documentation builder
Affiliation	St. Augustine's Academy, Prefect Council
Physical Description	Limited. Carries himself with authority.
Personality	Sees SD Media as 'ammunition' against scholarship kids. Building expulsion case. Zealous.
Key Relationships	ALISTAIR — Ally in anti-NEPH campaign; NEPH STUDENTS — Targets all of them
Danger Level	EXTREME — Actively documenting SD Media content as evidence. Doesn't know he's building a file on Rax's best friend, Zed's brother's circle, and a 64-member gang.
Key Quote	'An SD Media album featuring violent content, drug references, and anti-establishment rhetoric — produced by people connected to students at his school?'
Philosophy	'Fighting delinquency' — sees himself as protector of Academy standards.
Irony	Thinks he's fighting delinquency. Actually poking a wolf den with a ruler.
Current Arc	Documenting. Filing reports. On path to trigger major confrontation.

KEY RELATIONSHIP DYNAMICS

K-9 & Big 9 (Brothers)

Core dynamic: Big 9 took triple murder charge to protect K-9 ('I had to rise, and fall to make sure my little brother could see the next bright sunny day'). K-9 raps for Big 9, mentions him in every project. Big 9 used to be called 'Superman' on the Ends — when he went to Wormwood, K-9 became 'Krypto' (the Superdog). This is THE foundational relationship of SD Media.

K-9 & Rax (Best Friends, NOT Romantic)

K-9 explicitly defends this in 'Nest Crease': 'Rax is best string / Give my whole bein / To kept the best thing / In my life from jettin.' Rumors spread by Nala and others that they're dating — FALSE. K-9 is bisexual but Rax is his platonic anchor. K-9 is protective of Rax, not possessive. Rax brings normalcy.

Zed & Rax (Twin Brothers)

Blood connection. Zed is underboss; Rax is protected bridge. Zed: 'R Kidd my blood and kin.' Not clear if identical or fraternal twins. Zed's entire operational concern is protecting Rax while Rax navigates Academy. If Academy discovers Zed is Rax's twin AND gang underboss, catastrophic.

Big 9 & Dame (Engaged)

Dame: '25 to life just made me his wife and I'll wait 3 x that amount to make mine... Forever is my love for Big 9.' Mathematical eternal love (75 years). Dame runs SD Media operations while Big 9 is incarcerated. She's his voice on the outside, his strategic mind, his reason to survive.

Angel & Stray (Cipher Partners)

ProphetFilms Stream 01 — Technical Cipher. Angel and Stray (as The E-Boy) trade bars. CRITICAL: Stray's tinnitus (constant high-pitched whine) QUIETS during cipher with Angel. This has never happened before. Angel is the only person who can do this. This is a profound connection — possibly the most important musical relationship in the universe. If anyone identifies The E-Boy as Stray, it exposes Stray's hidden activity.

Angel & Zed (Volkov Connection)

Both have 'Volkov' in their names. Zed gave Angel the benediction on 'Volkov Legacy' — this doesn't happen lightly. Zed sees himself in Angel (trauma, masks, code-speaking). BUT: Zed warns Angel the Volkov name is dangerous — if Academy hears both 'Russian student at NEPH' AND 'Volkov on SD Media album,' questions get asked. Zed to Angel: 'The name. Change it or bury it.' Tension sits unresolved.

K-9 & Angel (Territorial Tension)

K-9 is THE VOICE. Angel arrives from Oakland, gets features with K-9, Zed benediction, and 7-track album positioning him as next-gen voice. K-9 respects the bars but feels threatened. After hearing full Dog Gone Profit: 'It's cold. But man's moving fast for a new dog.' K-9's minimal ad-libs on 'Hydrant Homage' could be endorsement OR caution. Post-Track 08 (suicide confession), K-9 sits with Angel in silence — protective shift, no longer territorial.

Angel & Lux (Mother-Son)

Complicated. Angel used Lux's phone call on Track 06 without consent ('Mijo...Sin Miedo, papi'). Lux: 'That's not yours to share. You honored me by putting my fear on display? That's theft.' Days later, understanding: 'If you're going to use my voice, make sure it's the version of me that fights.' She re-records message — steel, not tears. Two versions exist: vaulted (original fear) vs. potential release (fighter). Only Angel and Lux know.

SYMBOLS & RECURRING MOTIFS

Symbol	Meaning
Muzzle Up, Teeth Down	Core Dogs philosophy — control (muzzle up) vs. release (teeth down). Restraint until action is necessary.
At-risk (*)	Triple meaning: at-risk youth + asterisk notation + trap music. 'Real grime rap trapped straight from the at-risks.'
Sin Miedo	'Without fear' — Angel's family creed. Lux teaches this. Connects to Dog-Law commandment 'Fear No Evil.' Reyes family philosophy.
Red Paw	SD Media logo. Blood, violence, marking territory. 'Red tings' = guns/blood/violence but ALSO red markings on Dogs.
The Chain	Zed's logging chain — weapon used to drag him three blocks. Reclaimed as symbol. 'Off the chain tings' = wild + literal chain. When Zed says keep it, K-9 backs down immediately.
GT (Ghost Town)	Angel's neck tattoo. Ghost Town Oakland origin marker. Carries the dead with him. 'Straight out of Ghost Town Oakland.'
Krypto & Superman	Big 9 was 'Superman' on the Ends. When he went to Wormwood, K-9 became 'Krypto the Superdog.' Brother connection. 'Thank you. For being Krypto when I couldn't be Superman.'
72 Pills	Angel's suicide attempt. 72 pills (2 more than the 70 shots that killed his father). Trying to OUT-DIE V. Track 08 confession. 'So I ate 72 the red green and blues.'
Wormwood Scrubs	Big 9's prison. 'The woods that worms call good.' Mentioned in every project. Physical location of the founder. Symbol of sacrifice.
NEPH/SEPH	North Ends Public High vs. South Ends Public High. Unity explicitly stated: 'SD Neph seph.' No North-South beef — connection, not division.
The Kennel	47 Marlowe Street Basement, North Ends, London. SD Media studio. Where everything is recorded. Dame's domain. The vault location.
Academy Plaza	Neutral ground between NEPH and St. Augustine's. Fountain Incident location. Where Rax brings Angel for normalcy. Contested space.

DOG-LAW COMMANDMENTS (CANON)

Established by Dog-Prophet (Angel Reyes) on Track 04: 'Dog-Scripture'. These are now faction doctrine.

1. THOU SHALT NOT SNITCH
Foundational rule. Silence is gold. Never cooperate with police.

2. HONOR THE DEAD
Remember those who fell. Dimitri, Trey, Socks, Yay, Eatz, V — always mentioned. Never forgotten.

3. FEAR NO EVIL (SIN MIEDO)
Reyes family creed integrated into Dogs philosophy. Face danger without fear.

4. PROTECT THE SET
The pack comes first. Defend your people at all costs.

5. TRUST NO BITCH
Informants, betrayers, those who break loyalty — no trust.

6. KEEP THE STEEL COLD
Weapons ready. Emotional control. Don't let heat drive decisions.

7. WATCH THE THRONE
Protect leadership. Big 9 is founder even from prison. Hierarchy matters.

8. NEVER FORGET HOME
Oakland, London, Chicago — your origin is your anchor. Geographic loyalty.

9. SILENCE IS GOLD
Snout's protocol codified. What you don't say can't be used against you.

10. DOG EATS DOG
Survival of the fittest. The world is brutal. Adapt or die.

GEOGRAPHIC NETWORK MAP

OAKLAND (Ghost Town) → LONDON

Angel Reyes fled Oakland after father's murder, friends' deaths, RICO proximity. Arrived London with ProphetFilms camera. Connection established through unknown broker (possibly Dame, possibly someone who knew V Reyes Volkov).

KANSAS CITY (Strange Music) → LONDON

Big 9 established Strange Music connection (Tech N9ne, Krizz Kaliko, King Iso) before arrest. 'Big ups to Tech, Krizz, and X them.' Midwest + UK unity. K-9 uses chopper flow (Tech N9ne technique) on tracks.

CHICAGO → LONDON

'SF SD Chi town from the ends to the states.' Drill influence. 'fo no fo nem' reference. Connection established but details unclear. R-DOGG-IND possibly Chicago connection.

NORTH LONDON (NEPH) ↔ SOUTH LONDON (Dame)

Big 9 (North Ends) + Dame (South London) established North-South unity through relationship. 'From the pen to the penitentiary.' Dame bridges South London grit with North Ends operations.

WORMWOOD SCRUBS (The Cage)

Big 9's prison. Not a geographic origin but a permanent node in the network. 'From the states to the woods that worms call good.' Phone calls coordinate operations. Big 9 approves/denies members from inside.

CRITICAL TENSIONS & NARRATIVE BOMBS

THE E-BOY IDENTITY

DANGER LEVEL: CATASTROPHIC

If anyone identifies The E-Boy's voice on 'Technical Cipher' as STRAY, it proves Stray is NOT silent — he's active under aliases. This connects Stray to Angel (Oakland/RICO), destroys Stray's anonymity, betrays K-9 (Stray raps with newcomer but won't record with the pack?), and creates crisis for Dame (knew or didn't know?). Every day the album stays vaulted is a day this gun doesn't go off.

THE VOLKOV NAME

DANGER LEVEL: EXTREME

Angel Reyes Volkov + Zed's 'Russian student' cover = too close. If Alistair Delarusso meets Angel and hears 'Volkov,' does it validate or expose Zed's fiction? Zed warned Angel: 'The name. Change it or bury it. It can't live on a track and live in a school at the same time.' Tension unresolved. Time bomb.

PREFECT LEO'S FILE

DANGER LEVEL: HIGH

Leo is building documentation on SD Media content as evidence to expel scholarship kids. He doesn't know he's building a file on Rax's best friend, Zed's brother's circle, and a 64-member gang. If he submits this file, Academy administration might escalate to police. Metropolitan Police Gangs Matrix already monitoring. Leo is poking a wolf den with a ruler.

DOG GONE PROFIT VAULT

DANGER LEVEL: VARIABLE

Album is complete but vaulted. Reasons: (1) RICO references too specific, (2) Angel's 'target' is real, (3) E-Boy feature exposes Stray, (4) Lux's voice used without initial consent, (5) Track 08 suicide confession. Dame locked it: 'Not vaulted — LOCKED. Not sure it should ever come out.' If it leaks, multiple cascading crises. If it's strategically released, SD Media goes international. Dame controls the trigger.

NALA'S GOSSIP

DANGER LEVEL: MODERATE

Nala watches ProphetFilms on repeat. Ships K-9/Rax (wrong but spreads rumors). If she digs too deep into The E-Boy or connects Rax to Zed to Stray Dogs leadership, her gossip could expose the network to Academy elites. She doesn't realize she's discussing gang members. Currently harmless but potential liability.

TIMELINE OF KEY EVENTS

Date/Period	Event
2020	Trey (Angel's friend) dies in Oakland. First loss Angel memorializes.
Late 2023	Pre-Dogs era. Stray & Big 9 record 'SD Connections'. Stray & Zed record 'Chalk & Crown'. These are Stray's only confirmed pre-arrest recordings.
~2024	Big 9 arrested for triple murder. Takes the fall for K-9. Sentenced to 25-to-life x3 (effectively whole life order). Sent to Wormwood Scrubs. K-9 becomes 'Krypto' after Big 9 ('Superman') is caged.
~Late 2025/Early 2026	V Reyes Volkov (Angel's father) murdered — 70 shots, execution-style. Angel finds him or learns of death. Shortly after, Angel attempts suicide: 72 pills + vodka from V's garage. Lux finds him seizing, calls ambulance. He survives.
February 10, 2026	ProphetFilms Stream 01 goes live. Angel + Stray (as The E-Boy) perform Technical Cipher. 38,402 viewers. Angel arrives in London officially.
February 2026	Dog Gone Profit album recorded. Dame executive produces. Angel completes 7 tracks + suicide confession (Track 08). Big 9 hears it, orders: 'He's not leaving London. He stays with us.' Dame LOCKS the album (not just vaults — LOCKS it).
February 14, 2026	CURRENT DATE. Fountain Incident recently occurred (news reports 'Stray Dogs unusually active around Academy Plaza'). Metropolitan Police asking shops to report — silence protocol holds. Prefect Leo building file. Nala gossiping. Angel processing everything. Stray's tinnitus quiet when Angel is near.
